

## **INSTRUCTIONS FOR SEED TREATMENT APPLICATION RECORDS**

This form is to be used for Seed Treatment applications that do not involve other types of pesticide applications.

The top block information is self-explanatory. The Description of Application Equipment Used should describe the equipment used, whether the seed treatment is liquid or dry and location of the treatment equipment.

The lower part of the form may be used for up to nineteen seed treatment applications. This form must be completed for each individual seed treatment application and must be kept for a period of three years from the application date.
